IO2: Examples of countries used in the transitions from school to training and work

Short description of the tool	SORPRENDO is an innovative tool aimed at incoming orientation, to prevent early school leaving, outgoing orientation and reorientation activities for unemployed adults. The platform supports each user in defining their future goals, towards higher education, university and the job market. Moreover, SORPRENDO helps teachers with an effective working tool to design, manage and monitor each student's orientation activities producing forms and reports quickly.
Strong points	<ul style="list-style-type: none"> • wide range of target groups (pupils, undergraduate students, unemployed adults); • high accessibility for dyslexics; • huge database of activities to identify professional objectives and inspirations. • Supporting tool for teachers
Weak points	<ul style="list-style-type: none"> • It is not free of charge – not affordable to everyone • Access to good connectivity
License conditions	<input type="checkbox"/> Free to use (copyright or restricted) <input type="checkbox"/> Free of charge <input checked="" type="checkbox"/> With costs: depends on the selected account (up to 659-euro, VAT excluded)
Learning effects	<ul style="list-style-type: none"> • Learning professional profiles required by the job market • Defining the personal inspiration • Designing a tailored professional project
In which context is it used till now? Options for transfer to career guidance and counselling	It is still used at school, from lower secondary school to high school, at university and within the orientation activities addressed to unemployed people provided by the Employment Office.
