

Scenario of creative digital innovation in career counselling/orientation: WHAT AM I GOING TO DO?

Title: WHAT AM I GOING TO DO?

Method of delivery: Virtual, face to face, hybrid

Phase of career counselling/orientation: What do I want? What motivates me?

Duration: 20 minutes

Target group: students in the last year of Junior High School (age 14). In Italy at this stage students must choose their next step in education and training (lyceum, technical institutes, professional institutes, VET)

Size of the target group: individual work

Scenario: To help students who are in the process of choosing the high school they will attend, very often guidance professionals use tests.

Sometimes standardized tests are used, sometimes the orientator needs to make some changes according to the specific target group or a particular issue he or she wants to detect.

Digital natives are much more likely to fill out questionnaires or take quizzes presented in digital form rather than in paper format and for the career guidance practitioner an online test means less paper waste and the possibility to reuse tests by making as many changes as he or she deems appropriate according to the target group he or she is working with at the time. It also means being able to offer this activity while working remotely.

Learning settings for this scenario:

- 1. Classical setting: at school
- 2. Setting in a course or measure outside school in an organisation
- 3. Setting in a company
- 4. Individual (or in small groups) shorter and longer guidance phases by educational and vocational counsellors in an organisation
- 5. Transnational "European" learning environments

Used tool: H5P

Scenario of creative digital innovation in career counselling/orientation: WHAT AM I GOING TO DO?

Detection of the student's interests and talents: educational learning app H5P

Please take note that this is only an example of how the H5P app can be used to create quizzes. It is therefore NOT a complete quiz to be delivered to students.

The starting point

First question and response choice

1 of 5

Fix appliances and machinery (e.g., appliances, computers, electrical installations)

- not at all
- a little
- quite
- very much
- fantastic

Scenario of creative digital innovation in career counselling/orientation: WHAT AM I GOING TO DO?

Second question and response choice

2 of 5

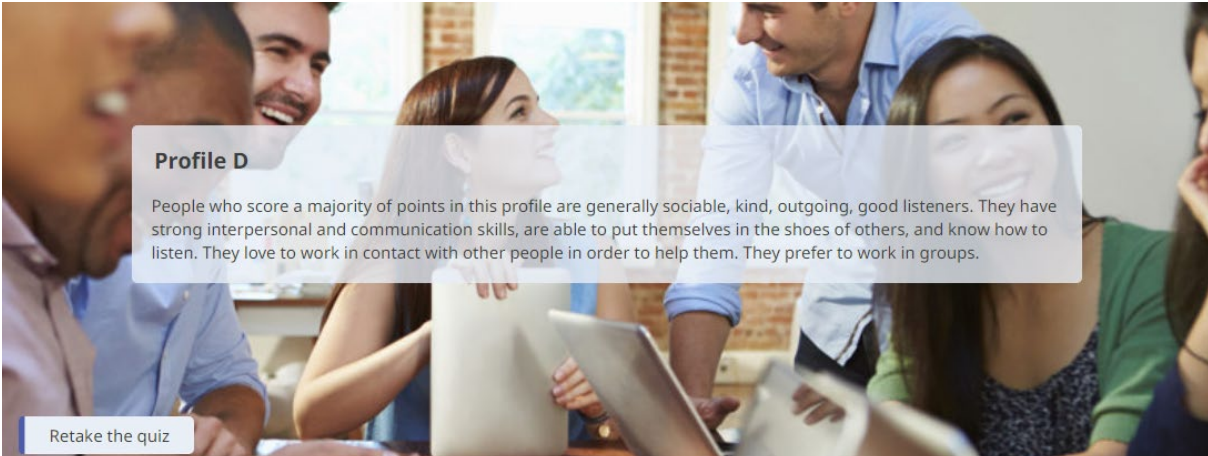

Managing a commercial activity (store, restaurant, bar..)

- not at all
- a little
- quite
- very much
- fantastic

Once all questions have been answered, the profile is processed

And at the end, a profile appears on the screen that has been processed based on the answers given.

Profile D

People who score a majority of points in this profile are generally sociable, kind, outgoing, good listeners. They have strong interpersonal and communication skills, are able to put themselves in the shoes of others, and know how to listen. They love to work in contact with other people in order to help them. They prefer to work in groups.

Retake the quiz
